3rd Online TPM was held on 20th June

The 3rd TPM meeting of the INA-CODE project was held on June 20 with the participation of all partners. In this meeting, our partner from Croatia, Ivan Konovic from SVEUCILISTE U ZAGREBU, talked about his preparations for the course videos, which is one of the intellectual outputs of the project. It was decided that the narrated video stream would also be used as a resource by other partners.

Next IO: **Arduino Card**

Representatives of our German partners Paula-Fürst Schule introduced the Arduino card they designed within the scope of the project. This card is specific to our project and is designed to receive interactive commands remotely. Card will be used in coding trainings through the online training platform.

FUTURE PLANS

INTERACTIVE WEBSITE

DEEP DIVE ARDUINO MOOC FOR STUDENTS

LTT-2 IN TURKEY

EXPERIMENT BOOKLET AND EVALUATION TOOLS

Within the scope of the INA-CODE project, the second Learning, Teaching, Training Activity will be held in Turkey / Kocaeli in September. The purpose of this activity is to train the participants about the experimental book preparation processes and the points to be considered in the preparation of the Evaluation Tools to be included in the MOOC. It is planned that 4 participants from each partner will participate in the activity. In the activity that will last for 5 days, trainers from Kocatürk Danışmanlık and Körfez MTAL will lead.
